

*“Life shouldn’t look like an old rerun.
That’s why I chose the cataract
replacement lens that corrects
more than just cataracts.”*

Florence Henderson, Crystalens patient, 2009

Crystalens®

Don't just see. See better.

Crystalens® is the only replacement lens designed to correct both your cataracts and give you a more natural range of vision. So you can see clearly, whether you're reading a book or looking across a beach. You don't have to live with hazy, blurry vision. Only your surgeon can determine if Crystalens is right for you.

For more tools and games, download
Crystalens iClear at the iTunes App Store.

INDICATIONS FOR USE: Crystalens® intraocular lens is indicated for implantation in the capsular bag of the eye for the visual correction of aphakia secondary to the removal of a cataractous lens in adult patients with and without presbyopia. Adverse events are comparable to the FDA-published historical controls.* Rx only. Only your surgeon can determine if Crystalens® is right for you and explain the applicable risks. *Data on file at Bausch + Lomb.
